

# MUNARI MOBILE DIY

## You will need:

- Card
- Printed templates
- String or cotton thread
- 3 wooden sticks or dowels
- 1 clear bauble (glass preferably)

## How to:

1. Print and cut out the templates on pages 2 and 3.
2. Back the shapes onto card with some glue. (Tip: place under a heavy book to dry so they'll dry flat)
3. Thread some cotton through the tops of each shape.
4. Attach to the shapes and bauble to the dowels using the diagram below to help.

5. Suspend low, above your baby's face. Low enough for them to see, but not so low that it is touching them.

Suitable from birth to around 6 weeks old!
